[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Junior full-stack web developer, with recent Coding Bootcamp completion certificate and experience building MERN stack applications. Great team player and creative problem solver.

Technical Skills

Frontend: ReactJS, HTML5, CSS, Responsive Design, Javascript, jQuery, Bootstrap, AJAX

Backend: MySQL, ORM, MongoDB, Express, Node, Handlebars, GraphQL, Webpack

Projects

DEJA Imp | <https://bit.ly/deja-imp-repo> | <https://bit.ly/deja-imp>

Group Project

- My main focus was to build front-end react components, along with backend scaffolding and seeding the database using react, mongoose, and faker-js, so the local wallpaper business would have an easy single-page application to manage inventory and vendors, using the MERN stack.
- Tools: Javascript, Node.js, Express Package, MongoDB, Mongoose ODM, GraphQL, JSON Web Tokens, Dotenv package, Bcrypt Package, Faker-js Package

Artist Nation Press List | <https://bit.ly/presslist-repo> | <https://bit.ly/artist-nation-presslist>

Group Project

- My focus was building the RESTful API routes and controllers using Express.js and Sequelize, along with building the front-end search page using handlebars.js, for Artist Nation contractors to organize and manipulate their presslist database internally.
- Tools: Javascript, Node.js, MySQL, Express Package, Sequelize Package, Handlebars, Express Sessions, Connect Session Sequelize, Dotenv package, Bcrypt Package, Casual Package

LOUD Social | <https://github.com/dneflas/loud-social>

Current Independent Project

- Currently in development a single-page social media application using MongoDB, Express, React and Node.js that gives the LOUD Community an opportunity to strengthen their communal bond by adding an online platform.
- Tools: Javascript, Node.js, Express Package, MongoDB, Mongoose ODM, GraphQL, JSON Web Tokens, Dotenv package, Bcrypt Package, Faker-js Package

Work Experience

UCLA Exposure Management Team | Case Investigator/ Contact Tracer Los Angeles, CA | 2020 - 2021

- Streamlined the cluster identification and contact tracing process by implementing a framework and tracking system that oversaw the entire UCLA population, leading to an increase in effectiveness of outbreak mitigation strategies..
- Aided in campus-wide reporting efforts by proactively implementing Salesforce Dashboards and reports, which reduced the turn around time of the reporting chain.

UCLA Bruin Health Pharmacy | Front-Line Pharmacy Supervisor Los Angeles, CA | 2014 - 2020

- Optimized daily work procedures by creating and implementing more efficient workflows.
- Promoted to supervisor from an entry-level clerk position, with consistent high performance reviews.
